

**IgG Fraction of Rabbit Anti-Vasoactive Intestinal Peptide Serum**

AS-1117

Lot # 3891

This antiserum was raised in rabbits which were immunized with vasoactive intestinal peptide (VIP) covalently attached onto a carrier protein. This antiserum is specific for VIP and can be used on histochemical preparations, western blots or for passive immunization.

**Antiserum Specificity**

<b>Polypeptide</b>	<b>% Cross Reactivity</b>
Vasoactive Intestinal Peptide	100
PTH (1-34) (Human)	0
Atrial Natriuretic Polypeptide (Human)	0
ACTH (Human, 1-39)	0
