

**IgG Fraction Rabbit Anti-Calcitonin (Salmon) Sera**

AS-1219

Lot # 7441

The antiserum was raised in rabbit which were immunized with Salmon Calcitonin covalently attached onto a carrier protein. The antisera have been shown to be specific for the immunocytochemical detection of Salmon Calcitonin. This antisera has been characterized by ELISA techniques. Dilute the lyophilized antibody with 0.1 ml of 10 mg/ml BSA in PBS for the equivalent of whole antiserum, or with additional buffer for more dilute antibody.

**Antiserum Specificity**

<b>Polypeptide</b>	<b>% Cross Reactivity</b>
Calcitonin (Salmon)	100
Calcitonin (Human)	0
CGRP (Rat)	0
ANP	0
PTH	0
Somatostatin 28	0
Vasoactive Intestinal Peptide	0
