

IgG Fraction Rabbit Anti-Endothelin Serum

AS-1897

Lot # 3244

This pooled antiserum was raised in a rabbit which was immunized with synthetic endothelin [15-21] covalently attached onto a carrier protein, bovine thyroglobulin. This antiserum is class specific for endothelins and is suitable for use in immunohistochemical procedures.

	Antiserum Specificity	% Cross Reactivity
Polypeptide		
Endothelin [15-21]		100
Endothelin 1 (human, porcine)		90
Endothelin 2 (human)		70
Endothelin 3 (human, rat)		90
Big Endothelin 1 (human)		>1
ACTH (human, 1-39)		0
Calcitonin (human)		0
Oxytocin		0
Vasoactive Intestinal Peptide		0
