

**IgG Fraction Rabbit Anti-Protein Kinase C Consensus  
[Ac543-550] Serum**

AS-2404G

Lot # 2830

The antiserum was raised in a rabbit which was immunized with synthetic Protein Kinase C consensus[Ac543-550] (human, rat, bovine) covalently attached onto a carrier protein. Rehydrate the lyophilized antiserum with 0.1 ml of 10 mg/ml BSA in PBS for the equivalent of whole antiserum, or with additional buffer for more dilute antiserum. The antiserum has been tested for recognition of Protein Kinase C by ELISA and IFA techniques.
