

Rabbit Anti-Protein Kinase C Consensus [Ac543-550] Serum

AS-2404S

Lot # 10586

The antiserum was raised in a rabbit which was immunized with synthetic Protein Kinase C consensus[Ac543-550] (human, rat, bovine) covalently attached onto a carrier protein. Rehydrate the lyophilized antiserum with 0.1 ml of 10 mg/ml BSA in PBS for the equivalent of whole antiserum, or with additional buffer for more dilute antiserum. The antiserum has been tested for recognition of Protein Kinase C by ELISA and IFA techniques.

Polypeptide	Antiserum Specificity	% Cross Reactivity
Protein Kinase C consensus[Ac543-550]		100
Protein Kinase C α [313-326]		0
Protein Kinase C β 1[661-671]		0
Protein Kinase C β 2[660-673]		0
Protein Kinase C γ [681-689]		0
Protein Kinase C δ [662-673]		0
Protein Kinase C ϵ [728-737]		0
Protein Kinase C ξ [480-492]		0
